

Please do something to stop phone companies from imposing misleading charges on my monthly phone bill. One cannot truly compare prices of phone services with the present practices. Whatever happened to truth in advertising? My cell phone that I purchased and use only for emergencies ended up costing about double what they said it would cost. My regular phone bill is ridiculous. Eight pages long filled with charges no one can figure out???. Come on, give us a break. Where is the common sense, decency, and truth that America needs if it is to survive? Instead we get greed, obfuscation, deceit, lies, etc., etc. Not a winning formula, folks. I support the petition filed by the National Association of State Utility Consumer Advocates and endorsed by other consumer advocacy organizations, including CU. This petition, CG Docket No. 04-208, Petition for Declaratory Ruling Regarding Truth-In-Billing and Billing Format, is long overdue. Thank you.
